

People who work in technical fields are found everywhere! They can be:

- ▶ The contractors who build your new home and the factory workers who assemble your iPod™.
- ▶ The pilots who fly you to your vacation destination and the news anchors who bring you the news.
- ▶ The police officers who keep you safe and the auto technicians who use the latest technology to figure out why your car isn't working.
- ▶ The researchers who discover renewable sources of energy and the legislators who propose policies to promote affirmative environmental practices.
