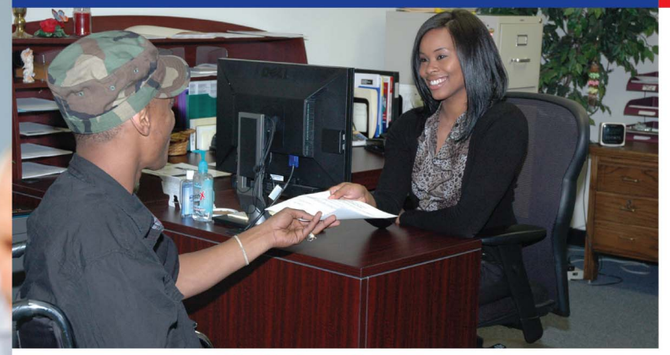
We provide people with disabilities equipment to enhance their lives.



About ICAN

Increasing Capabilities Access Network (ICAN), a section of Arkansas Rehabilitation Services (ARS), a division of the Arkansas Department of Career Education (ACE), provides assistive technology (AT) equipment, information, and training to Arkansans with disabilities to help them live more independently.

Our Products

We offer a wealth of assistive technology for loan, recycle, and demonstration including:

- ***Wheelchairs***
- ***Crutches and walkers***
- ***Communications devices***
- ***Alert systems***
- ***Bedside commodes***
- ***Wheelchair ramps***
- ***Bath/shower seats***
- ***Braille watches***
- ***Text readers***
- ***Flashing light home systems***
- ***Speech devices***
- ***And many more!***

Visit our website at **www.ar-ican.org** to view our ICAN AT4ALL Equipment Database and find the assistive technology to meet your needs.

ARKANSAS REHABILITATION SERVICES

Our Services

ICAN provides equipment demonstrations, trainings, and presentations to individuals, family members, employers, educators, and professionals.

Training

We provide training on specific devices, such as Dynavox, Vanguard, and augmentative communication devices for individuals with autism. All of the scheduled training opportunities are listed on the training calendar on our website, **www.ar-ican.org.**

Presentations and Exhibits

ICAN staff also facilitates presentations about our services and the benefits of assistive technology as well as workshops and exhibits provided at no cost. If you are interested in including **ICAN** in an upcoming meeting, conference, or special event, contact us today at **1.800.828.2799.**

Loan Program

We loan a wide range of assistive technology devices to individuals so that they can try out a device before purchasing or use it in a temporary time of need, such as, when a device is being repaired or if it will be needed only for a short period of time. Wheelchairs, standers, and walkers require a prescription from a doctor or therapist. Augmentative and Alternative Communication (ACC) devices over $3,000 can be checked out only by a speech and language therapist or an occupational therapist. To check out a device, a valid state ID is required.

Tours

ICAN welcomes the public to tour our technology clearinghouse at 525 W. Capitol Avenue in downtown Little Rock. Virtual tours are available at **www.ar-ican.org.** Touring the **ICAN** facility in person offers the best opportunity to learn about the technology available for individuals with disabilities.

Tours may be arranged Monday through Friday from 8:00 a.m. to 4:00 p.m. by contacting **ICAN** at **1.800.828.2799.**

Eligibility

ICAN's products and services are available to all Arkansans with disabilities without regard to age, disability, income, geographic area, or eligibility for any other program.

How to Apply

To apply online, it's as simple as 1…2…3.

1. Visit **www.ar-ican.org** where all of the equipment available for loan is listed.
2. Bookmark the items you would like to borrow and submit your request.
3. **ICAN** will contact you to let you know if the items you requested are available for loan and when you can pick them up.

You can also view the items available in our clearinghouse at 525 W. Capitol Avenue in downtown Little Rock. To make an appointment or for more information, please contact us at **1.800.828.2799** or email **ICAN@arkansas.gov.**
