

Gain More Independence With Jitterbug & TAP's Wireless Pilot Program

The Arkansas Telecommunications Access Program (TAP) has partnered with Jitterbug to offer independence for those who have trouble using a standard cell phone. The Jitterbug J has big buttons and a large bright screen, so it's easy to see for those with low vision. The Jitterbug is also easier to hear for those who have mild to moderate hearing loss with a powerful speaker that delivers crisp clear sound and the highest hearing aid compatibility rating (M4/T4).

Jitterbug is easy to see, easy to hear & easy to use.

Patented Ear Cushion
reduces background noise

Powerful Speaker
for crisp, clear calls

- NO roaming fees
- NO long distance fees

More rate plans available at www.Jitterbug.com/RatePlans.

TAP Conditions of Acceptance for the Wireless Pilot Program Participants.

1. All trial participants will be able to keep their TAP landline equipment in addition to their wireless device.
2. For the duration of the trial program only, participants that already have two pieces of equipment from TAP may keep them both in addition to the wireless device. After the one year pilot program, the customer must decide which two pieces of equipment they prefer to keep as they will be allowed only two primary devices at that time.
3. Trial participants must agree to all terms and conditions of the trial including responsibility for the rate plan and services they choose.
4. The maintenance and repair of wireless devices are the sole responsibility of the customer.
5. During the one year trial period, any equipment replacements will be transacted between the customer and Jitterbug.
6. Trial participants will be required to participate in evaluations of the trial program as requested by the TAP staff.
7. Participants are encouraged to obtain the Handset Replacement Option for an additional \$4 a month through Jitterbug because TAP is under no obligation to replace the handset.
8. Participants will be enrolled in the pilot program on a “first-come, first-served” basis.
9. The pilot program will run for a year period beginning July 1, 2010.
10. The participant is responsible for monthly service charges to Jitterbug.
11. If the participant no longer wants to continue taking part in the pilot program, then the Jitterbug should be returned to TAP for distribution to another interested applicant.

*Rate plans do not include government taxes or assessment surcharges. Prices and fees are subject to change. Anytime Minutes carry over for 60 days. Night clock begins at 7pm and ends at 6am. Nights and Weekend Minutes are good for 30 days. Standard usage rates apply while you are calling LiveNurse or calling Jitterbug Operators on your Jitterbug.
