Get a jump on Life and have some **F\*U\*N\*** doing it.

Meet new friends. One thing you'll learn is what your fellow YLF'ers teach you...like answers to how others deal with specific things in school, your common disability or something as simple as things from everyday life and how they deal with it. Through networking with new friends,

You'll find answers to to some of your pressing questions.... at **Y-L-F**.

**Transition**—you have the same rights in college as you did in high school **BUT** there is a difference in how you go about getting them. You'll learn those differences at YLF.

To survive college, you'll need Time Management and good study skills. We'll provide *key elements* to make things easier for you and what your rights afford you.

**Networking** is a term you'll hear more and more. You'll get one of your first doses of networking with the other YLF students. You'll learn how they cope with their disabilities and trade ideas on how to each other survives.

**Independent Living** is a challenge you'll have to deal with sooner or later. Experts in their fields will help ease the fears of moving out on your own; shopping for groceries, managing money and the importance of health care and nutrition.
