5. Other Submission Information (Special Accommodations)

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact our office. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

6. Review and Selection Process: A panel of non-Federal readers will review each application in accordance with the selection criteria and the competitive preference priorities, pursuant to Act 1285. Readers will be trained by the Department and given guidance on how to evaluate applications in a method that is both uniform and rigorous. The individual scores of the readers will be added and the sum divided by the number of readers to determine the reader score received in the review process. In accordance with Act 1285, the Associate Director for Arkansas Works will evaluate the prior experience (PE) of applicants that received an Arkansas Works Program project grant for project years 2009-2010, 2010-2011, 2011-2012, and 2012-2013. Based upon that evaluation, the Associate Director will add PE points earned to the application's averaged reader score to determine the total score for each application. The Associate Director, along with the Deputy Director for Career Technical Education and Director of Career Education, makes new grants in rank order on the basis of the total scores of the reader scores and PE points awarded to each application. If there are insufficient funds for all applications with the same total score, the Associate Director for Arkansas Works, along with the Deputy Director for Career Technical Education and Director of Career Education will choose among the tied applications so as to serve geographical areas that have been previously served by the Arkansas Works Program. The Associate Director will not make a new grant to an applicant if the applicant's prior project involved the fraudulent use of program funds.

We remind potential applicants that in reviewing applications in any discretionary grant competition, the Associate Director may consider the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Associate Director may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

The following guidance may assist you in addressing each of the selection criteria:

(A) **Need:** Applicant must include justification for each county, school district or target schools (if applicable) identified in the application. **Performance Measures:** The success of the Arkansas Works program is measured by the Career Coaches' positive impact on assigned school districts and counties. Applicants must also provide information on how it will ensure that sufficient resources are available to effectively and efficiently serve the proposed number of target schools.

The information provided in this section of the application will be assessed based on the quality of the applicant's response for addressing the identified needs as related to the identified issues outlined in the Need section. All of the proposed services and activities should be clearly aligned with the identified needs of the participants to be served in the targeted areas and proposed target schools.

applicant and by community partners and should demonstrate in this section how the proposed commitments and support will enable the proposed project to carry out the proposed project plan in the most cost-effective manner possible. The applicant must include letters of support.

The “plan to select applicants” inclusive of selection committee should be included in this section.
