CAREER AND TECHNICAL STUDENT ORGANIZATIONS EXHIBITS

In observance of Career and Technical Education Week Feb. 13-19, students with our career and technical student organizations—DECA; SkillsUSA; FFA; Future Business Leaders of America; Phi Beta Lambda; Health Occupations Students of America; and Family, Career and Community Leaders of America—will set up exhibits in the Capitol Rotunda from 8:30 a.m. to 1 p.m. Tuesday, Feb. 15. These students are coming from all over the state to show what they are doing and learning.

The exhibits will include a demonstration of a 3-D printer, a how-to demonstration on calculating body mass index, and free blood pressure checks and cholesterol screenings. There also will be videos and displays of some of the projects the students are working on.

Legislators will be meeting with the students throughout the morning, and state officials will be addressing the students at 11:30 a.m. There should be some good photo ops as well as several good story ideas.
